Job shadowing, an effective practice at our school will introduce you to different careers and will help you decide which jobs would be most suitable for you once you complete the schooling. This will not only encourage you to gain a **comprehensive knowledge about a subject** but also, will give you an opportunity to **explore specific careers** and get a **realistic picture** of the tasks performed for that job.

This Programme is part of our **organic learning approach** and is the **first potent existential step** towards formulating your career. It further creates an environment of **experiential learning** for you by providing **on-the-job training, learning and career development** by shadowing the **experienced dignitaries** to get a better idea of what it takes to build a career in their fields.

While pursuing this fellowship you have to ensure that you will complete 30-hours of training which spans to almost 10 days. Credits of this research-work, training and learning will be credited to your overall percentage.

We already have various internship opportunities for you in the field of **music, performing arts, Legal Department, Chartered Accountancy, NGO Sector, photography, theatre** and **few other Multi-National Organizations** in which you will be working under a shadow of few accomplished professionals.
